

Patient Fitting Guide VENUM Universal TLSO PPX

## **VENUM Universal TLSO PPX patient fitting guide**

# Donning whilst standing/sitting

Step 1

Place left arm through attached shoulder section

Step 3

Pull right hand strap across the abdominal section to tighten brace

Step 5

Clip shoulder strap in place

#### Step 2

Pull posterior section around the body and stabilise the front section with left hand ensuring a central midline

Step 4

Pull bobbin straps out and across in order to increase fit around abdominal section

## **VENUM Universal TLSO PPX patient fitting guide**

#### Donning whilst laying

Step 1

Place brace on bed

Step 3

Place right arm through shoulder section and pull brace across so front section is in the midline

Step 5

Pull bobbin tension straps out and across to increase fit around abdominal section

Step 2

Patient should lie into brace with the distal posterior section at level of mid buttock ensuring brace is symmetrical

Step 4

Stabilise abdominal section with left hand while using right hand to pull the brace across

Step 6

Clip shoulder strap in place

## **VENUM Universal TLSO PPX patient fitting guide**

Doffing whilst standing, seated or laying

Step 1

Remove bobbin tension straps

Step 2

Loosen right hand section of brace to relocate tension at abdomen

Step 3

Unclip right shoulder strap

Step 4

Remove brace from left side

We hope this guide provides useful information on how to don and doff your brace. However, if you are experiencing difficulties or are unsure about how to wear your VENUM Universal TLSO PPX please contact your Orthotist and rehabilitation centre immediately.
