Prosthetic product solutions

# Cable or spring operated range

We are pleased to introduce the next generation of cable and spring operated hands. Our advanced materials and manufacturing make these our most detailed, durable and lightweight cable and spring operated hands ever.

- Four sizes from Child to Adult.
- Front and back pull or spring close options available.
- A range of handplates allows connection to RSLSteeper and other manufacturers' wrist systems.
- Compatible with our range of full-length Elegance™ cosmetic gloves in either PVC or silicone. Available in 19 skin shades. Micro-pigmentation TrueFinish™ or Standard finish can be provided.
- A choice of three cable terminations are supplied with the cable pull options.

## RSLSteeper cable and spring operated hands: ordering information

To order standard silicone glove colours omit the "T" prefix. Eg. SG 300/E2 – Provides an 8 1/4 left silicone glove in standard finish colour E2.

To order standard PVC glove colours change the part number prefix to "CG." Eg. CG 300/E2 – Provides an 8 1/4 left PVC glove in standard finish colour E2.

Inner glove numbers follow the hand numbers. Therefore, a replacement inner glove for MHA725LB will be IHA725LB.

Swatch ordering information. E24654: E0 to E18 standard colours. E24655: E0 to E18 Truefinish™ colours
