

**Pollution Prevention and Control Act 1999
The Environmental Permitting (England and Wales) Regulations 2016**

Application for a Permit

Hugh Steeper Ltd has applied to Leeds City Council for a permit to operate an installation for a coating, drying and curing process where the activity results in the release into the air of over 5 tonnes of organic solvents in any 12-month period at Unit 3, Stourton Link, Intermezzo Drive, Leeds, LS10 1DF.

The application contains a description of any foreseeable significant effects of emissions from the installation on the environment. The application has been placed on the public register held at Environmental Action Service, Millshaw Park Way, Leeds, LS11 0LS and can be inspected free of charge between 9 am and 4 pm, Monday to Friday, by prior arrangement. Any written comments on the application should be made to the Chief Officer Environmental Action at the above address within 28 days of the date of this advertisement.

Any written comments will be placed on the public register unless they include a statement requesting that this is not done. If there is such a request the register itself will just include a note that representations have been made which are not on the register because of such a request.
