

Insoles Technician

The Steeper Group is a privately-owned business that was formed almost 100 years ago. Since then we have expanded across prosthetics, orthotics and assistive technology – with a focus on creating significant turning points in individuals' lives through exceptional clinical services and award-winning products.

We are a true leader in our market. From humble beginnings, we have grown to become one of the UK's largest suppliers of Orthotic, Prosthetic and Assistive Technology products. Uniquely, we combine age-old craft skills with the latest innovations in manufacturing and materials.

Steeper's vision is to create life's turning points, together. We aim to do this with innovative prosthetic, orthotic and assistive technology products and services.

We currently have a vacancy for a motivated team player to join our company as an Insoles Technician working within our Orthotics department in Leeds.

Our aim is to create positive turning points through innovative prosthetic, orthotic and assistive technology products combined with industry leading clinical services. Joining Steeper as an insoles Technician means you'll be part of a company which truly makes a difference to the quality of peoples' lives.

As an Insoles Technician, you will work with a highly experienced team of technicians and a strong multidisciplinary team to develop skills that will enable you to undertake the manufacture of TCI's and flatbed type insoles.

Duties/ Responsibilities:

In this role you will be responsible for making insoles that correct biomechanical problems such as fatigue, knee pain, back and foot problems. This involves preparing and scanning in impression boxes using our CAD system, 'mill out' the insoles and prepare the insoles for finishing. Where required you will also be trained to grind and finish the insoles using relevant machinery.

Each insole is bespoke and made to measure for an individual patient. A key part of this role is ensuring that orders are actioned effectively and efficiently to satisfy the requirements of our patients and clinicians.

To do this role you will need to be confident at using Orthotic Insole CAD Systems, shoe making equipment, hand tools, have good hand/eye coordination, along with excellent attention to detail. You'll also need to be focused and be able to demonstrate that you can operate in a high pressure volume related environment, ensuring that all work undertaken is ready for delivery within the relevant timescales.

If you feel you have the necessary attributes to be considered for the above position, to apply, please complete an application form or submit your CV. Application forms can be obtained by emailing the HR team on (hr@steepergroup.com). Alternatively visit www.rslsteeper.com/careers and download an application form from the website.

The closing date for applications is Friday 29th September 2017

Steeper is committed to valuing diversity and treating everyone who works for or wishes to work for us fairly. We will treat everyone with the same attention, courtesy and respect, regardless of age, impairment, ethnic origin, nationality, religion or belief, social class, sex, sexual orientation, gender reassignment, marital or civil partnership status, responsibility for dependents, pregnancy and maternity or trade union activity. Steeper is committed to act positively towards disabled people and we actively welcome applications from disabled people.
